At Labotek A/S, we develop and manufacture solutions for dosing, drying, and handling plastic materials for the plastics industry. We aim to reduce the environmental impact of our activities while supporting more resource-efficient and responsible production for our customers.

We are committed to:

- Complying with applicable environmental legislation and other binding obligations
- Preventing pollution and continuously reducing our environmental impact
- Actively working to reduce energy consumption, waste, and resource loss
- Integrating sustainability and circular economy principles into our products and processes
- Collaborating with suppliers and partners who support our environmental ambitions
- Raising environmental awareness among employees and involving them in improvement efforts
- Setting environmental objectives and working systematically on the continuous improvement of our environmental management system

Through responsible choices and continuous improvements, Labotek aims to contribute to a more sustainable plastics industry.
